## LILLER'S REMOVAL BEING CONSIDERED

**Tumulty Wires Governor Kilby Department of Labor Has Request Under Advisement.**

Washington, February 14.—Secretary Tumulty, replying today to the request of Governor Kilby, of Alabama, that Commissioner of Conciliation Liller be withdrawn from Alabama, where he has been investigating the coal strike situation, stated that Secretary Wilson, of the department of labor, has under advisement the question of Liller's return.

"Your telegram of February 11 to the president has been received," Secretary Tumulty telegraphed Governor Kilby. "The secretary of labor reports that on February 9 he directed Commissioner of Conciliation Liller to proceed to Washington for consultation on the Alabama coal miners' strike, and that he left Birmingham that night. Secretary Wilson also reports that he has under advisement the matter whether or not Mr. Liller will be returned to Alabama."

In an appeal to the president to remove Liller from Alabama, Governor Kilby stated that the representative of the department of labor had made charges against him both in the press and in letters directed to him personally which made his presence in the state objectionable.

Birmingham, Ala., February 14.—A committee representing the state federation of labor is en route to Washington to ask a congressional investigation of the coal strike in this state.

The committee is composed of J. E. Busby, president of the Birmingham Trades council, and Louis Bowen, secretary of the state federation.

The committee departed for the capital immediately after the close of a labor mass meeting here late yesterday, where resolutions were adopted calling upon Governor Kilby to recall Liller and to join with unionized labor in asking for federal troops if the executive issuing such a recall order strikes zone. The resolutions placed

# California Peaches in Mid-Winter.

## BLUE RIBBON PEACHES (DRIED)

FRESH peaches in mid-winter? Yes! For Blue Ribbon Peaches are fresh peaches with only the water removed. The finest fruit produced in California is now obtainable at your grocery.

Leading health authorities say "Eat more fruit," and this is possible now in the winter as well as in the summer because the peach growers of California pick the fruit only when fully ripened and remove the water by natural evaporation in the open sunshine. This makes these peaches available for your use throughout the year.

Peaches contain valuable mineral elements and fruit acids vital to building good health and they are most delicious either as sauce or as the foundation for many enjoyable recipes.

Ask your grocer for Blue Ribbon Peaches from California. See how the entire family will enjoy them.

## HUMANE SOCIETY WORK IS LAUDED

its work and in its present campaign.

Jerome Jones, president of the Southern Labor congress and editor of The Journal of Labor, who followed Mrs. Lumpkin, said:

"I know of no organization that comes so near to touching the principles, aims, purposes and philosophy of the labor movement as the Humane society. It has done more and said less about it than any organization I know."

"When the convict lease system was being fought in the legislature and the lines were drawn tight, the Humane society was there fighting shoulder to shoulder with organized labor for the abolishment of that evil system. Again when child labor laws were being urged, it was the Humane society that helped in having such statutes enacted."

Dr. Lyons speaks.

"If the Humane society can get before the people what it has done and what it proposes to do," said Dr. J. Sproles Lyons, of the First Presbyterian church, "its fight is won. No association in Atlanta has a cleaner or more honorable record."

R. F. Shelden, one of the pioneer members of the society, told of what it has done and urged an enlargement of its efforts to aid the helpless.

Mrs. R. K. Rambo declared "that two great things to which I have looked forward have come to pass. One was the laying of the Wesley Memorial cornerstone. The other is this meeting, the greatest gathering in the history of the Humane society."

Mr. Manget read the following letter from J. P. Stevens, who is now in St. Petersburg, Fla.

"I see by the paper that you are at the head of a movement to raise a fund for the Humane society. As a contribution to the sum I herewith enclose you my check for \$100, also one for Mrs. Stevens for \$20. You have my good wishes for the success of the work which you have undertaken."

The Atlanta Woman's club then pledged 100 members. A committee of which Lucian York is chairman pledged 50 members. The Billy Sunday club, John Silver & Co., L. W. Rogers company, Julian Boehm, W. T. Decker and Will V. Zimmer each pledged 30 members, and other pledges were for 15, 10 and five members.

## PROTEST INCREASE IN CITY GAS RATES

Indignation Meeting Called—Howard Urges Municipal Plant—James Perry Defends Commission.

Following the action of the Georgia railroad commission in granting an increase in gas rates to the Georgia Railway and Power company, these were the developments of Monday.

Citizens and Edgewood and Inman Yards called a meeting to voice their protest against the raises.

Attorney William Schley Howard issued a statement in which he urged council to establish a municipal gas plant.

James Perry, a member of the railroad commission, issued a statement meeting of citizens in the Inman yards and Edgewood communities has been called for this week.

William Schley Howard, former congressman and at one time an attorney for the power company, has flatly refused to pay the increase and has instructed the company to take out his meter at the next reading. He resides in Kirkwood between Edgewood and Decatur.

Attorney Howard, in a statement concerning the increase granted the gas company, urges city council to condemn the gas plant and float bonds for a city-owned gas service.

This question, as well as local measure which may be adopted in the fight against the gas increase, will be discussed at a meeting of Edgewood citizens tomorrow night at 8 o'clock at the residence of W. H. Haisron, 1 New York avenue.

"I don't understand what is the matter with the commission," Haisron stated Monday. "Every community is coming up with a gas rate increase such as enormous increase to the gas company. The people in Edgewood are conversant with economic conditions. We are going to meet and decide what steps to take."

Howard's letter to the gas company follows: "The Georgia Railway and Electric Company: Gentlemen: This is to request you at the next meter reading date to be good enough to cut the gas supply at my residence, 1024 West College avenue, Decatur, Ga.

"The service in the past has been abominable. This you have unquestionably known from the numerous complaints you have received from citizens.

"The increase is unjustifiable. The raw material out of which you manufacture gas is on the to-be-out-of-the-world list. The country is reducing rather than increasing the rates.

"The increase is unjustifiable. The raw material out of which you manufacture gas is on the to-be-out-of-the-world list. The country is reducing rather than increasing the rates.

"It has always been my desire to be fair to our public utility corporations. During the war and subsequent to the war there was a justification for increases to meet the urgent contingencies arising from the upheaval created by the war, but with the farmers lying financially prostrate at the feet of a world-wide economic revolution, with thousands of men out of employment and with the general poverty of the cost of other necessities of life, it is the patriotic duty of the corporations to take their share of the inevitable losses like men and not impose upon a long suffering public by taking advantage of a situation that the people of Georgia will bear in mind until a later date.

"So cut off the gas and I and mine will cook with chips until a day in the future that I hope will not be far distant. Respectfully,

WILLIAM SCHLEY HOWARD.

The "Liver Tone" Man Warns  
Folks Against the Sickening, Salivating Drug.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.  
Calomel is mercury! When it comes into contact with your bile, it crumbles into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.  
Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can't salivate or make you sick.—(adv.)

# NORTH AVE. CHURCH PLANNING TO RAISE \$60,000 THIS YEAR

The North Avenue Presbyterian church is preparing to duplicate its success of last year, when the congregation made the best record of the southern general assembly in

raising funds for church work. An extensive campaign is being conducted in an effort to reach every member of the congregation. Last year in the Presbyterian progressive program the North Avenue Presbyterian church was the biggest contributor. The goal for this year is \$60,000. It is planned to raise the money in two hours on Sunday, March 13, by teams that will canvass every member of the church. J. E. Rogers is general chairman of the every member canvass.

## Why Are Skin Diseases So Difficult to Overcome?

When your skin breaks out with itching eruptions, tetter, rash, eczema, psoriasis, or other terrifying disorders, very often the pain becomes so intense, and the discomfort so thoroughly unbearable that you are willing to try almost any remedy that you think will give some measure of relief from the torture.

But temporary relief will do you but little good, for soon all the itching and irritation breaks out afresh with renewed fury, and you soon realize that local remedies such as ointments, salves and similar treatment will never rid you of your trouble.

It will not be so difficult to rid yourself of skin diseases if you will but realize that these troubles originate in the blood, and if you expect real substantial relief you must treat them through the blood. The best remedy for this purpose is S. S. S., the fine old blood remedy that purifies the blood of disease germs, and thus restores the skin to a normal and healthy condition. Begin taking S. S. S. today, and write a complete history of your case, and our medical director will give you expert advice without charge. Address Chief Medical Adviser, S. S. S. Laboratory, Atlanta, Ga.—(adv.)

Still another lass, whose picture has already graced the pages of The Constitution during the contest, received a letter which she doesn't know we have and which we are clandestinely reproducing, not for publication, of course. It goes like this:

Letter From Admirer.  
"I noticed your picture in The Constitution along with some others, and am writing to express my admiration of your natural beauty and your attractiveness. You should

be very happy and your aim in life must be a success. But a note of admiration, I am a boy living in the foothills of the Blue Ridge mountains, all clothed in nature, out on the farm, all alone. And as I go strolling down the lane, just as evening takes possession of the day, down to the brook where the song of the water as it ripples over the stones, with the song of the Bob White whistling for his mate and the song of the whippoorwill, it gives me the realization that there is real life and an abundance of love somewhere. There is always more or less to look forward to and life is always what you make it. So add just a little bit of sunshine, scatter flowers along the paths of others and not on the graves of the deceased."

## DOWNERS RECOVERS \$84,000 LOCKED IN BOWDON SAFE

After experts had spent two days applying tremendous pressure, the solid steel safe of the Bank of Bowdon, which failed to respond to its mechanism Tuesday morning, was yesterday opened by C. C. Downes, local safe repairer, and \$84,000 which had been locked up in the safe was recovered. Cashier Jenkins of the Bowdon bank, told Mr. Downes that he placed the money in the safe and was unable to get to it when the door refused to open. It was found that the mechanism was unable to draw the locking bolts, and these were sheared and the door removed with only a slight damage to the safe. The recovered money was placed in the keeping of the Fourth National bank by Mr. Jenkins and the safe will be repaired and re-shipped to Bowdon.

Following the business meeting the regular weekly tea-dance was held. Two hundred guests were present.

## DUNCAN REID IS GUEST AT ELABORATE DINNER

Prominent Insurance Man  
Here in Connection With  
Compensation Act.

Duncan Reid, of New York, one of the leading life, liability and indemnity insurance men of North America, was entertained last night at a dinner party given by Forrest and George Adair at the Druid Hills Golf club.

Mr. Reid is president of the Globe Indemnity insurance company, of New York city, and his visit to Atlanta at this time has especial reference to the Georgia workmen's compensation act that was made a copy of the general assembly. This law requires every employer of ten or more workmen (excluding steam railroads in interstate traffic) to provide at the option of the employees, insurance policies covering them in case of accident and illness. The act was adopted by the Georgia legislature upon the urgent requests made by labor as well as employers, and the fact that it will become operative on March 1, has drawn the attention of companies writing such business to this state just prior to the operation of the new act.

The Globe Indemnity company of New York is one of the most important concerns in this branch of insurance, and Mr. Reid, as head of the company, while en route to California, detoured to Atlanta to confer here with local representatives regarding the new law and the greatly increased business expected through the operation of the workmen's compensation act.

While in the city Mr. Reid was the guest of Forrest and George Adair, who were hosts at the dinner party last night. Mr. Reid was the guest of honor. A number of the foremost citizens of Atlanta were invited to meet Mr. Reid, as follows: John L. Heather, superintendent of the liability department of the Globe Indemnity company, was a guest of honor also, and the following prominent Atlantans were present at the dinner party: H. M. Atkinson, Preston S. Arkwright, Frank Adair, E. A. Erwin, G. M. Ramour, John E. Murnher, T. K. Glenn, Robert Greig, Clark Howell, Buford Goodwin, Graham West, Albert Howell, Frank Preston, E. A. ## HOW TO GET RID OF CATARRH

A Simple, Safe, Inexpensive  
Method that Clears Out the  
Head, Nose and Throat.

There is no disease more offensive or disagreeable or no disease that will lead to as much serious trouble as catarrh. You can now get rid of it by a simple, safe, pleasant home remedy discovered by Dr. Blosser, a catarrh specialist.

Dr. Blosser's Remedy is composed of medicinal herbs, flowers and berries which you smoke in a dainty pipe or cigarette. The smoke-vapor is inhaled into all the air passages of the head, nose, throat and lungs. It contains no cubes or tobacco and may be used by women and children as well as men. This medicated smoke carries medicine where sprays, douches and ointments cannot possibly reach. Its effect is soothing and healing and is entirely harmless. If you are a sufferer from catarrh, asthma, catarrhal deafness or subject to frequent colds, you should try this Remedy without delay. ## GEORGIA WAR BOOK MAKES APPEARANCE

Highly Indorsed and Affords  
Wide Variety of Military  
Information.

First copies of the Georgia State Memorial book, a complete compilation of Georgia's part in the recent world war, which has been accepted as the official military record of the state, are now off the press, and the American Memorial Publishing company, which is the publisher, states that in a short time there will be an abundance of the volumes placed on sale throughout the state. The book is handsomely gotten up with finely glazed pages and

leather binding. It has been indorsed by Governor Dorsey and Adjutant General J. Van Holt Nash and is also approved by the many patriotic organizations of the state, which aided in the compilation. This is the first state publication of its kind in the United States to come off the press. Two years were spent by Rev. E. B. Hall, its editor, in assembling the information, and Mr. Boss states that the sum of \$50,000 was spent in compiling the facts contained. In addition to pictures of groups of patriotic organizations and prominent state and national figures, the book contains the picture of practically every Georgia soldier who met death during the course of the war. A variety of other useful and interesting information is contained, and the book, as a whole, is one of the most authentic and handsome ever published in this state.

Of English invention is a hollow walking stick, designed to catch many catarrh while in the hand, and is a match box.

## PUT FIGHTING QUALITIES IN YOUR BLOOD

If You Are Pale and Weak, Without Ambition, You Need a Tonic

TRY TAKING PEPTO-MANGAN

Rich, Red Blood Fights off Disease and Keeps You Well and Enables You to Work With Pleasure

Serious sickness often comes when you least suspect. You may feel a little over-tired. You haven't been exposed to contagion, yet all of a sudden you are flat on your back and in for a siege of sickness. Your blood did not have fighting qualities. It was weak and thin. Your vitality and powers of resistance were low.

When you overdo you use up energy. Your blood is driven to do more than it can. It becomes clogged with waste. The waste acts like poison. Disease germs get in your blood and dominate.

Don't let yourself get run down. Take that good tonic, Pepto-Mangan. It makes rich, red blood that will resist and rout out disease germs.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. Comes in either liquid or tablet form. Both have the same effect.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan—"Gude's." Ask for it by the name and be sure the full name "Gude's Pepto-Mangan" is on the package.—(adv.)

## OFFICIALS TO ASK FOR LARGER NAVY

Authorities to Request Senate for Greater Enrollment Than 100,000 Maximum Set by House.

BY JOHN GLEISSNER, United Press Staff Correspondent.

Washington, February 14.—Naval authorities are preparing to ask before the senate with a plea that the enlisted strength of the navy be increased to more than the 100,000 maximum set by the house.

The appropriation bill for the navy, which the lower chamber has just passed, provides funds for only that number. The present strength of the navy is 143,000 men. Naval experts will argue that the reduction in personnel will force out of commission modern vessels of war and that the efficiency of the fleet will be seriously impaired. They declare the place for ships is at sea, and point out that ships which have been constructed at a cost of hundreds of millions will seriously deteriorate through disuse. Small craft, like destroyers, are said to go to pieces rapidly when not in operation.

Counts Statement.

Admiral Coontz, chief of operations, is authority for the statement that 92,000 men are required properly to man the fleet, a number which would be available for actual sea duty.

With the figure at 100,000, about 75,000 men would be available for sea duty. Two first-line dreadnaughts would be among the ships forced into reserve. These are the "backbone of the fleet." There are now nineteen of them. The number of first-line destroyers would be cut from 144 to 96; cruisers from 13 to 10; mine sweepers from 47 to 35; fuel ships from 28 to 18; transport and cargo craft from 26 to 18. Auxiliary vessels of one sort and another would also be forced from active duty. The 121 submarines, many of which are now building, would all be kept active. Naval experts were insistent on this.

The bill does not appropriate any money for the construction of airplanes. At the same time the senate has before it a recommendation from the naval affairs committee that two new airplane carriers be built instead of 12 destroyers and two submarines previously authorized. This they may find feasible with airplane carriers, but no planes for them to carry.

Subject to Debate.

The whole subject of aviation in naval warfare had been the subject of protracted debate in the senate. Senator Borah and others have argued that the capital ship has been made less useful through development of aerial warfare. Hence a fight in this direction is assured when the appropriation comes before the senate. The bill would suspend construction on some of the capital ships authorized in the 1916 building program, for continuation of which the house provided \$90,000,000.

Captain Craven, head of the navy air service, declared the amount authorized for that branch is wholly inadequate. The service asked for \$35,000,000, but got \$1,913,431. The reason the appropriations committee did not provide new construction is that it was considered a legislative matter which properly should come from the committee on naval affairs. So this latter body has a bill which would provide \$3,914,000 additional for aerial development. But the money is to come "out of any moneys hereafter made available therefor." It will be necessary for the funds to be provided

by the appropriations committee, if the house approves the naval committee's bill.

sorted they strongly favored an early international convention on disarmament, and the prediction was made that President-elect Harding would do his utmost to bring about such a conference soon after his inauguration. It also was argued that it would be a mistake to put the construction program of the navy in peril by taking a step which might require suspension of building operations for a time. Representative Mondell, the republican leader, expressing the conviction that Mr. Harding would evolve a disarmament program, said it was the duty of congress to let him start negotiations in that direction. "If he delays or hesitates," said Mr. Mondell, "then congress can

COAST DEFENSE BILL ON WEDNESDAY.

Continuation of the 16-inch gun program for use in the coast defenses of the United States, Hawaii and the Panama canal for the next year is provided for in the annual appropriations bill of approximately \$5,000,000 which will be reported to the house Wednesday. There is \$27,500,000 less than was asked for by the war department and compares with \$18,000,000 for this year.

The subcommittee, of which Representative Simpson, republican, Virginia, is chairman, completed the bill today and will be brought before the house this session. About \$200,000,000 of unexpended balances of appropriations for fortifications during the war will be returned to the treasury under a provision in the bill.

To Buy Tobacco Isle.

For acquisition of the island of Taboga of 1,170 acres owned by the republic of Panama in the Pacific, the bill reappropriates \$100,000. This sum was made available two years ago for the taking over of this island by the United States in connection with the defenses of the Panama canal, but the matter was held on objection to the argument of Panama and it is still the subject of diplomatic exchanges. The war department is interested in the bill to sell not less than 2,000 of the 7,000 tractors which it has on hand for moving big guns. These tractors, committee members said, can be used on farms and all of them are expected to be out of date for artillery movements in a few years.

Air Funds Denied.

Requests for appropriations for an air base in the Philippine Islands, and funds for locating an additional air squadron in the Panama canal zone and in Hawaii were denied.

No appropriations were made for the purchase of shells and other material which surplus was accumulated during the war.

The secretary of war would be empowered to place the 16-inch guns as they are completed in the most advantageous places for defense.

LANDIS IMPEACHED FOR BASEBALL JOB

to be heard. Friends of the judge immediately called for the attorney general's ruling which will be submitted to the committee, and a member said a motion would be made to discontinue the proceedings in the belief that the ruling covered every legal question involved.

Five Specific Charges. In his statement Mr. Welby declared Judge Landis, in the course of his long service on the bench, had done a great deal of good, but that if he wanted to retain the confidence and respect as a judge "he must divorce himself from the flimsy and illegal combinations." There were five specific charges, chief of which was that he neglected his official duties for "another gainful occupation not connected therewith."

The charges were as follows: "1. For neglecting his official

duties for another gainful occupation not connected therewith.

"2. For using his office as district judge of the United States to settle disputes which might come into his court as provided by the laws of the United States.

"3. For lobbying before the legislatures of the several states of the union to procure the passage of state laws to prevent gambling in baseball, instead of discharging his duties as district judge of the United States.

"4. For accepting the position as chief arbiter of the disputes in baseball associations at a salary of \$12,500 per annum while attempting to discharge the duties as a district judge of the United States which tends to nullify the effect of the judgment of the supreme court of the District of Columbia, and the baseball gambling indictments pending in the criminal courts of Cook county, Illinois.

"5. For injuring the national sport of baseball by permitting the use of his office as district judge of the United States because the impression will prevail that gambling and other illegal acts in baseball will not be punished in the open forum as other cases."

## MEDICAL MEN TO MEET AT SPARTANBURG, S. C.

Spartanburg, S. C., February 14. (Special.)—The Tri-State Medical association, composed of physicians of Virginia and the Carolinas, will hold its annual meeting here, beginning Wednesday and continuing through Tuesday. There are more than 500 members of the association and it is expected that most of them will be present. Some of the most distinguished physicians and surgeons of the country are on the program to read papers. Stuart McGuire, of Richmond, retiring president, will give a dinner to the retiring presidents of the association, of whom there are now about 18 living, on Thursday evening.

U. S. TO SUPPLY CLOTHES, FOOD TO KILPATRICK

Washington, February 14.—Ar-

rangements to supply food and clothing to Captain Emmett Kilpatrick, of Uniontown, Ala., American Red Cross officer held by the Bolsheviks in a Moscow prison, have been made by the state department. Secretary Colby wrote today to Senator Harris, democrat, Georgia. Mr. Colby also said every effort was being made to facilitate the

release of Captain Kilpatrick, but that considerable difficulty has been met because "this government has no intercourse with the soviet authorities." The secretary added that Dr. Fridtjof Nansen, of the International Red Cross, who is assisting the

repatriation of prisoners of war held in Russia, had been asked to interest himself in the cases of Americans detained.

# The Significance of Spring

ALWAYS SPRINGTIME has a significance not attributed to any other season. It is the real Birthday of the year when the shackles of grim winter are broken and the warmth and color which is man's heritage from Mother Nature commences to creep into the world.

All things then are new, the discomforts of the winter past are forgotten and we revel in the gracious beauty which foretells the season, the tree in bud, the field that shows vividly the tender green shoots of grass, the song of the Early Robin.

To all of us, and especially to the Chamberlin-Johnson-DuBose Company, this Spring will have a very definite meaning, a more real meaning than any Spring which has gone before.

For we propose to leave behind us all of those unpleasant things the past year developed.

Filled with talk of this and talk of that, with writings and predictions it was a year of uncertainty, such a year as we hope never to see again.

For more than a half century we have striven to serve the people of the South and particularly of Atlanta, in a manner to assure you that whatever you choose to purchase from us included VALUE with QUALITY. The best QUALITY we could possibly find for you, the best VALUE we could possibly make you.

We have never been able to consider this business as merely a money making proposition, devoid of sentiment and apart from the people we have lived with all our lives, and loved.

It may be that we are a bit old-fashioned; it may be that we are not doing as well by ourselves as we could do if we shook off that Human part of our business, that sense of duty to our public which is always very close to us, and devoted ourselves strictly to making money.

But we don't want to do that. When all is said and done there is far more satisfaction in the respect of the folks you live with, the real affection of the community you serve than there is in a lot of money.

So we are going to start all over again, new. The Spirit of Springtime is stirring within us. We want to begin again to tell you frankly, concisely and without boasting, without useless argumentative talk, about the merchandise we have garnered for you from the markets of the world.

And we know you will appreciate such an action. We know you will be glad to start all over new again with us, for the Spirit of Springtime is in the hearts of every one in Dixie. We are all willing to forget the past. No pessimist lives among us and we are bound for a year of prosperity and happiness, which will conclusively eradicate the scars of the year gone by.

For Miss Neely. A delightful Valentine party was given yesterday by Mrs. H. L. Schlesinger for her granddaughter, Miss Rachel Neely.

Twenty-five little girls were the guests and games and Valentine contests made a happy afternoon. Refreshments were served.

Mrs. Wheatley Asks For Women Volunteers.

In order to be prepared for any emergency that may arise in Atlanta or in the territory of the southern division of the American Red Cross is preparing a large number of "casualty relief parcels" of sterilized surgical dressing, and Mrs. John C. Wheatley, who is in charge of the work, has issued a call for more women to volunteer their services.

At the time of the explosion in Wall street last fall, the Red Cross in New York had on hand \$5,000 surgical dressings, which undoubtedly proved of great value in dressing the wounds of the injured. As casualties are not infrequently kept in a large surplus of bandages but make them from day to day as needed. The dressings being made by the southern division will be stored at headquarters to be ready for any disaster that may take place.

Women who learned to make dressings during the war can be of great service now to the Red Cross, and women who have not made dressings before will be equally welcome as the process is very simple and they can easily learn. The dressings are being made every morning from 9:30 to 12:30 on the second floor of the Tuffs building at 249 Ivy street, and all women who are willing to help are requested to report to Mrs. Victor M. Clark, director of auxiliary service for the division.

### Formwalt School Parent-Teachers.

A very important meeting of the Formwalt Parent-Teachers' association will be held Thursday afternoon, February 17, at 3:30 o'clock. The main business of the day will be the action on the bond issue. Of particular importance is the fact that Professor Sutton, principal of Tech High school, will be the speaker of the day, and all who have ever had the opportunity of hearing Professor Sutton speak know what a treat it is for them.

The interesting features of the program. Refreshments will be served. All parents and friends are cordially invited.

### How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clear molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good, and tastes very pleasant.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchitis, asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and the famous world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind. (adv.)

### Shrine to Hold Dance Wednesday.

Trulid Hills club Wednesday night will be given over to the third formal dance under the auspices of the dance committee of Yaarab Temple. Coming so near to Valentine day it will have some features that will remind all of this good saint's day.

All members of Yaarab Temple are invited, as are sojourning nobles. The affair is complimentary, but is strictly formal, and nobles must wear their fezzes and show the 1921 shrine card at the door.

McDowell—Jones. Announcement is made of the marriage of Mrs. Laura B. McDowell and Will Wynne Jones, February 12.

Mrs. Jones have gone to Miami, where they will make their home.

Mrs. Rolleston, Hostess. Mrs. James A. Rolleston was hostess to her bridge club Thursday afternoon at her home on Boulevard Terrace.

The living room, where the game was played, was very prettily decorated with Valentine suggestions. After the game a delicious luncheon was served on lace-covered tables.

The invited guests were: Mrs. Wiley McDowell and Mrs. Frank McCormack. Top score prize was won by Mrs. Frank W. Day, and consolation was cut by Mrs. George E. Braun.

The regular members present were: Mrs. Roy H. Pitt, Mrs. George E. Braun, Mrs. Robert Bost, Mrs. John D. Evans, Mrs. Frank W. Day, Mrs. Viewig, the hostess's mother, assisted in entertaining.

Argentine Club Gives Enjoyable Dinner-Dance. A beautiful occasion last night was the dinner-dance given by the Argentine club at the Georgian Terrace.

The club membership is composed of a representative group of the younger set, and at the dinner last night covers were laid for fifty. Dinner and dancing was staged in the rose dining room, which was decorated with palms.

dollar is a reflection on the public

spirit and intelligence of the man

who keeps it out of circulation."

The pay-what-you-can plan is

brightening business wherever it

is in operation. It isn't a "cam-

paign," but a principle.

And the dollars are working.

A WINNING SLOGAN.

"Register, vote, carry bonds,"

is the substance of the bond cam-

paign slogan that has been adopt-

ed by the Eleventh Ward Improve-

ment club; and with that as the

rallying cry the progressive citi-

zens of the eleventh ward are

going ahead in an intensive drive

for bonds and a better day for

their city and their immediate

community.

Like every other ward in the

city, the eleventh has a peculiarly

local objective in view in striving

for the success of the \$8,850,000

bonding proposal, in addition to

the improvements contemplated

that are for the general welfare

of the whole city—their slogan in

its entirety being: "Register, vote,

carry bonds, build a school on

Whiteford avenue, remove the

city stockade."

That is well and good, but those

wide-awake citizens realize that,

while they want a new school and

the stockade improvement for

their own community benefit, the

only way to get those things is

for the entire city to obtain the

money necessary to make the im-

provements that are needed in

each ward.

In other words, they realize that

the way to build up their own

ward is to work for the means

whereby the whole city may be

given the facilities that are so

badly needed by the public at

large.

Hence the admonition:

"Register, vote, carry bonds!"

If the public-spirited citizens of

all of the other wards will adopt

that policy, and organize in behalf

of the bonding proposal—carrying

their organization from the ward

to the precinct, from the precinct

to the neighborhood, thence to

the block and to the home fire-

side—nothing that a few peren-

ial "antis," chronic croakers and

skinfint pay-as-you-go reaction-

aries can do to possibly prevent

ratification of the measure on elec-

tion day!

Otherwise, if it is not backed by

proper organization, and aggres-

sively urged every day between

now and the date of election, the

result may be surprising to those

who now can see no possibility of

its defeat.

Let every citizen bear in mind

that a registered vote not cast on

election day will be equivalent to

a vote against the proposal.

Therefore, "Register, vote," and

"carry bonds!"

"The dictatorship in Russia will

last forty years," says Lenine.

He's another officeholder that

doesn't want to let go.

Nothing remarkable about "a

straight airplane flight to Cuba,"

but a "straight" flight back would

be.

That reparation bill would make

many "scrapes of paper," and Ger-

many is tearing mad.

No landlord "would have the

Harding has.

We read that a wine grape

growers' convention gave prohibi-

tion "three cheers and a tiger."

you can afford to hold your head

reasonably high.

Astronomers say the planet Saturn

is "cutting up" some, but as yet

it has no political rings.

Perhaps the Germans hope to get

a pot of indemnity gold out of

Bergdoll.

"Even the ocean is to be made

dry," says The Baltimore Ameri-

can. Yes, and they are policing

the air.

There's plenty of Prosperity,

but it doesn't brag much—along

about income tax time.

"Home brew" has many ailments,

but any one of 'em can raise the

root.

They say the ankle watch is com-

ing in again, and they'll have to

kick high to tell the time o' day.

An exchange says "preachers

live longer now." Is it possible

their congregations have ceased

to drop buttons in the collection

basket?

Harding will have an alligator

for a white house pet. He will

need a Jonah-whale to swallow the

office-seekers.

"It is the hidden money that is

who thinks straight must realize

that the business interests of today

are interdependent to so great an

extent that prosperity is only pos-

sible where co-operation is con-

tinual.

Advice as to the "Ship of Life,"

from "Uncle John," of The Excel-

'em slippin' back—so, in every

## Denham Faces "Giant Killer" In Main Event of Great Card At the Auditorium Tonight

**TONIGHT'S FIGHTING**  
MAIN BOUT, 10 ROUNDS—**JACK DENHAM**, Atlanta, vs. **JACK DILLON**, Indianapolis, featherweights.  
SEMI-WINDUP, 10 ROUNDS—**BATTING BOB**, Atlanta, vs. **LARRY AVERA**, Atlanta, welterweights.  
PRELIMINARY, 10 ROUNDS—**FEARLESS FERNS**, Atlanta, vs. **FRIDDLE**, Georgia, bantamweights.  
OPENER, 6 ROUNDS—**YOUNG SHEDDING**, Georgia, vs. **TIM O'DOWD**, Atlanta, featherweights.

The time is 8:30, the place is the Auditorium and the principals are eight of the most popular and skillful lads available in this section of the United States.

On paper, the card looks like the best ever presented here, barring one. It is the main event, and the greatest list of fighters held in Atlanta on an evening.

The Denham-Dillon fight, of course, is a attraction, because of the fact that it is the main event, and the greatest list of fighters held in Atlanta on an evening.

In facing Dillon, however, he will be opposed by a man whose record is better than his own. Dillon is a fighter of the type that is known to back away from an adversary. When the milling is over, Dillon can be found in the thick of it, battering his way to victory usually.

## GEORGIA IS NOTED WINGO PREPARING FOR LOCALS AND PETRELS

By JOHN MAHONEY.  
Athens, Ga., February 14.—(Special.)—The University of Georgia has sailed through a stormy schedule without lowering her colors to a college foe.

Coach Stegeman has moulded one of the best basketball squads that has ever represented Georgia. This is evident from the impressive record of the Red and Black this season. The only five that has been able to break through the five-man defense of the Red and Black for a victory is the Macon "Y" organization.

However, all court struggles of the past retire to the background, when the two coming games are considered. Georgia and the Atlanta Athletic club have been rivals since the memory of man, and the rivalry is expected to continue. The two teams are expected to meet in a game that will be a hard-fought battle.

**Lost Both Games.**  
Last year, Georgia dropped both games to the Macon "Y" organization. The memory of these defeats is alive in the mind of every member of the Georgia team. They are expected to win both games this year.

It is true that all the "dope" is with the Atlanta Athletic club. It has met every representative team and has won over them all by substantial margins. The Georgia team is expected to win both games this year.

This week-end, Georgia will play the Atlanta Athletic club and the Macon "Y" organization. The Georgia team is expected to win both games this year.

## CLEMSON COLLEGE DEFEATS TARHEELS

Clemson College, S. C., February 14.—(Special.)—The Clemson Tiger five defeated the University of Carolina Gamecocks in a hard-fought basketball game here this afternoon. At the start of the game, the Gamecocks were expected to win, but the Tigers held the lead until the end. Both teams played snappy ball, and Carolina did some excellent shooting, but could not drop the ball in the basket as often as the Clemson quint.

The individual stars for Clemson were Colbert and Hines, also Newman. The Gamecocks' stars were Hines and Hines. The Tigers won by a score of 20-15.

## BASEBALL PRACTICE BEGUN BY TECH HIGH

Coach Tolbert called for the first baseball practice of the year today at Tech High, and about eighty-five men reported. From the look of the material on hand, the coach pointed toward a great nine for the Marietta street lads this season.

A number of the team answered the call, among them being Winston Carroll, Mumford, Richardson, Terrell, and Captain Miles.

Coach Tolbert will coach the outfit, and a better man would be hard to find. He coached the Cadets last year and put out a team that did him great credit. The Tech High nine will have regular practices at Piedmont.

## GEORGETOWN EASILY WINS OVERGA. TECH

Washington, February 14.—(Special.)—The Georgetown Hoyas basketball team tonight did what Georgetown football teams haven't been able to accomplish in two years, and turned the Golden Tornado of Georgia Tech back with a defeat. The final score was 37 to 14, the Hoyas showing nothing but a splendid fighting spirit that held the local collegians in check for a full minute of the first half. After that the battle revolved itself into a Georgetown triumph, and the Yellow Jackets were forced to look on while the score mounted.

The Hoyas' last workout, "I'll win sure," was Denham's comment. "I'm in good shape, and all I want to do is to beat Denham. I'll be in there and fight back at me. Then you'll see a scrap."

## CHAMP JACK LEAVES FOR EUROPE SOON

Boston, February 14.—Jack Dempsey, world's heavyweight champion, will make a European tour next month. He will go to England and France for exhibition fights. He will extend over six weeks. ## 168 GAMES LISTED FOR INTERNATIONAL

New York, February 14.—The playing schedule for the season of 1921 was adopted at the meeting of the International League of Baseball Clubs here today.

## Early Starts for S. I. A. A. Tourney All-Day Sessions Are Possible

If the entry list for the S. I. A. A. basketball tournament continues to grow as it has in the past week, some of the contestants will have to be getting up by daybreak during the early stages of the elimination. The first battles of the tourney will be waged on February 25, and the last on March 1. This gives four days for actual competition. Now, suppose there are twenty entries—and there's every likelihood that there will be at least that many—then that means ten games will have to be played the first day, which means that there will be a fairly early start by some entrants.
